

Northfield Construction Limited

QUALITY STATEMENT

Northfield Construction Ltd will:

keep up-to-date on industry developments in Health & Safety, in concrete and associated products, and makes significant investments in plant and staff training. This is in order to maintain leadership as specialists in bespoke reinforced concrete super-structures, sub-structures and groundwork's.

In addition to this, Northfield Construction Ltd. recognise that in today's competitive market, effective quality systems are essential to the delivery of quality cost effective services to our clients. Management is committed to providing contractor services that comply fully with the specifications and expectations of our valued clients. It is the policy of Northfield Construction Ltd. to adhere to this quality control plan and to ensure that this plan and the requirements of our customers are met on every project we execute.

In order to achieve this, Northfield Construction Ltd. continually assesses and improves the QA Management Plan. QA methods apply from the beginning of each project and continue to give guidelines for the good execution of the project until final handover to client satisfaction. The implementation and amendment of the QA Management Plan is measured and reviewed continually.

Northfield Construction Ltd. is fully committed to this QA Management Policy.
